News and Events

For the Radon Professional

Image by [Leonardo Marchini](#) from [Pixabay](#)

Congratulations Colorado!

A new law is on the books in Colorado! House Bill 21-1195 titled, *Regulation of Radon Professionals*, passed 26-9. Congratulations to all who worked the past several years to make this happen! A detailed report can be found in AARST's biennial *Certification Report* in the July issue of [The Radon Reporter](#).

Attendee safety and COVID in Maryland

We are excited to announce that Maryland is at 100% capacity for indoor event and convention venues, and has lifted mask mandates

for all persons vaccinated. This is possible because Maryland has achieved a 70% vaccination rate. AARST continues to work closely with the hotel. Marriott still requires its associates to wear masks.

Vermont Passes School Legislation

The Vermont legislature has passed **House Bill 426** which requires each public school and approved independent school to perform a radon measurement in accordance with ANSI/AARST MALB-2014 on any facility that has not had a radon test completed in five or more years by June 30, 2023. Schools are also required to reveal the results to all employees and students. The bill allows an additional year for compliance if the school is engaged in implementing an indoor air quality improvement project. The bill awaits the governor's signature.

When To Give Your Logo A Facelift (Rebrand)

As business owners and entrepreneurs, we tend to think of our logos as permanent. We don't consider them fluid properties; they're stable, reliable hallmarks of our brand. Here are four major issues to look for when deciding when to update your logo. [MORE](#)

Call for Non-Compliance Case Studies

AARST's Public Affairs and Policy Team is seeking submissions of documented cases, including photos and videos of radon testing and radon mitigation systems that do NOT meet the core elements of current ANSI-AARST Radon Standards. The submittals will be used in public affairs presentations to local, state, and federal policymakers, code officials, and the public. [CLICK HERE](#) to participate.
