Rockville, Maryland 20852

## KTA 150 LOW VOLTAGE SYSTEM

Class II  
24V AC

Trusted for  
over 30 years!

I've installed over 1,500 KTA low voltage systems in my career, and I've had a problem with exactly one. The 150 fan is a great product! With a hydro-sep they'll last twice as long!

Doug Bowen,  
Owner Pike's Peak Radon

### Calling ALL Mitigators, We Need Your Feedback

As we look to future opportunities for risk reduction, the radon/vapor intrusion industry, and the larger stakeholder community would benefit from accurate information regarding mitigation trends in the US.

If you conducted any mitigation work in 2020, please participate in this anonymous **SURVEY** by May 17, 2021.

AARST will not divulge to anyone the individual responses. AARST will publish information about the aggregate mitigation effort across the industry in the *Radon Reporter* and use the information for planning and advocacy on your behalf.

Thank you in advance for your assistance in completing this survey.

### Radon in the Multifamily Lending Marketplace FAQs

This FAQ is provided for AARST members who are interested in understanding how one gets into the highly specialized multifamily lending market for radon professionals' services. Here are some frequently asked questions that may be helpful in determining whether this work is right for you. **AARST Members Log In to Read More**

- MEETS **NEW** AARST/ANSI STANDARD SGM-SF-2017 SEC. 8.2.2

**ORDER NOW**  
**1-800-453-2570**

### Call for Non-Compliance Case Studies

AARST's Public Affairs and Policy Team is seeking submissions of documented cases, including photos and videos of radon testing and radon mitigation systems that do NOT meet the core elements of current ANSI-AARST Radon Standards. The submittals will be used in public affairs presentations to local, state, and federal policymakers, code officials, and the public. [CLICK HERE](#) to participate.

### 'Critical for HUD to act': agency watchdog says public housing tenants need radon protections

The U.S. Department of Housing and Urban Development has failed to ensure residents living in public housing are protected from exposure to radioactive gas, the agency's independent watchdog determined this week, confirming findings from a 2019 investigation by The Oregonian/OregonLive.
