AARST™

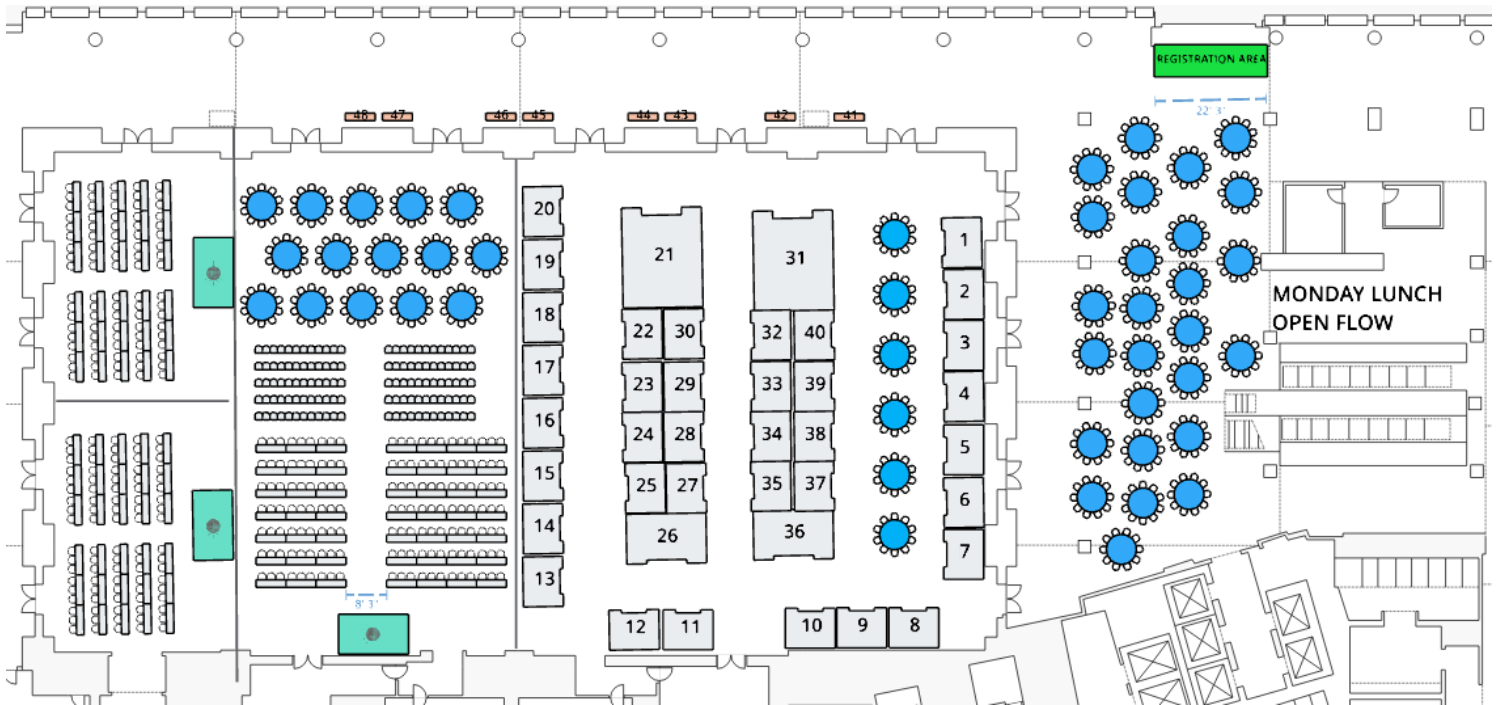

Welcome to Indoor Environments 2025™, Radon and Vapor Intrusion Symposium

Indoor Environments Association (IEA) is a nonprofit professional technical organization that serves a unique role as an ANSI-AARST standard-setting body, demonstrating long-term stewardship and providing its accredited professionals with the tools and education to be leaders in the soil gas industry.

As IEA grows, the symposium also grows the range of attendees and vendors. Attendees are technicians in the field of radon and vapor intrusion measurement and remediation, states and tribes program leaders, and increasingly more environmental companies attend for training and to expand their forums. **Indoor Environments 2025** is the definitive source for government agencies, advocates, educators, scientists, and companies sourcing field application-based needs seeking the leading indoor environments gathering annually.

The Exhibit Hall will be located in the Fort Worth Ballroom on the second floor of the hotel.

The entrance to the hall faces the Texas Ballroom Pre-function Corridor with a wall of windows that look out onto downtown Fort Worth. The opening reception and all breaks will be located in the Exhibit Hall. Lunch tables will be set in the Texas Ballroom Lobby area. Breakout rooms are located just beyond the exhibit hall, making the hall central to all activity during the symposium.

Information for Exhibitors and Sponsors at Indoor Environments 2025™

New exhibitors and sponsors should pre-register with Indoor Environments (AARST) to purchase booth(s) and sponsorships. All booth and sponsorship selections are purchased based on a priority point system. Priority exhibitors can purchase before others. (Details below)

- Priority List (PL) Exhibitors will select all booths and Sponsor Opportunities during the advanced selection process. If a PL exhibitor has not selected during their scheduled time, they forfeit priority.
- Any company may purchase booths and Sponsorships *after* the PL selection process has been completed. After, Booths and Sponsor Opportunities are first come first serve, and payment is due in full immediately to lock in both/all purchases.
- All Sponsorship Opportunities are offered A La Carte.
- Premium Sponsor Levels are available only to those exhibiting in person.
- Premium Sponsor Levels are achieved by accruing certain numbers of points during the purchase process. SEE THE RULES BELOW REGARDING PREMIUM SPONSORSHIP
- Points for all products are indicated throughout the selection process and in the shopping cart.
- Points tally on Vendor Dashboards in real-time.

Priority List and Purchasing

Exhibitors with 25 points or more are listed on the Priority List annually. Exhibitors with the highest number of points select first during pre-determined selection dates. To qualify for placement on the Priority List annually, exhibitors must be IEA members in good standing. Once the Priority List selection period has ended all other vendors with less than 25 points may purchase and be assigned their selections on a first come first serve basis.

Points accrued during the season will total on each “vendor dashboard.” All products have points assigned to them. Booth attendee registrations do not accumulate points. Points accrued over the 3 most recent consecutive years. The 2025 points listed below are calculated from 2024 + 2023 + 2022. If vendors have not exhibited or sponsored during the 3 year accrual period, that year is represented as “0” in their point calculation. Older points drop from the accrual formula annually.

Exhibitors are Assigned a Date Range to Select

At the end of each selection period, exhibitors are assigned booth space(s) and sponsorship item(s), based on their place on the PL. Availability is updated at the start of the selection period or week. Priority Selection period is February 13 through March 14th. After March 14th all remaining booths and sponsorships are available to purchase on a first come first serve basis.

Choosing your booth: The booth store has options during the checkout process for 1st, 2nd, and 3rd choices for booths. Choices are ranged in rows or specific large booth numbers.

Booths and Sponsorships are purchased and assigned according to the Priority List

Exhibitors are contacted with the selection schedule. All exhibitors not on the Priority list may purchase once the selection weeks have passed, on a first-come, first-served basis.
