

Mitigation Audit Review: Do Credentials Matter?

Bob and Dawn Coffee
Your Environmental Services LLC

Things to know...

We have performed over
175 audits in Indiana and
Michigan in the last 3 years.

Things to know...

We have performed over 175 audits in Indiana and Michigan in the last 3 years.

(with another 100 to complete before the end of 2024)

Things to know...

We perform audits using the IEA Mitigation Audit App, which is essentially a checklist with photos.

Things to know...

We understand that *homeowners* sometimes alter their system between the time it was installed and the audit.

Audits were scheduled by sending out letters to homeowners with recently installed mitigation systems.

Locations were accepted on a first come first serve basis.

Roughly $\frac{2}{3}$ of the audits were performed in Indiana, a state requiring credentials, and $\frac{1}{3}$ were performed in Michigan, a state not requiring credentials.

There were some issues that
were common in both states...

And finally, here is the winner
of the “Standards? Who knew
we had standards” award.

And if this weren't
bad enough...

Conclusions...

Conclusions...

- Indiana Isn't Perfect.

Conclusions...

- Indiana Isn't Perfect.
- But The Percentage Of Non -Compliant Issues Was Higher In Michigan.

Conclusions...

- Indiana Isn't Perfect.
- But The Percentage Of Non -Compliant Issues Was Higher In Michigan.
- And Indiana Can Require Non -Compliant Issues To Be Corrected.

Conclusions...

Credentials Do Matter.

Thank you!
