

'Conversation with a Doctor' Video Series

*2024 Indoor Environments Symposium
September 5, 2024*

Melinda Enstrom, Illinois Radon Program

Introduction

- Dr. Kevin Atchason contacted the American Lung Association wanting to be involved in their mission and radon education
- Settled on creation of series of short videos (10-20 seconds) of a Dr. answering questions about radon
- Short snippets provide flexibility for use:
 - List on webpage
 - Reels and posts for social media
 - Edit multiple together

What type of radiation is associated with radon gas?

How does radon get into the body?

Why is radiation exposure due to radon so dangerous?

What kind of cancer is associated with radon exposure?

How does radon cause cancer?

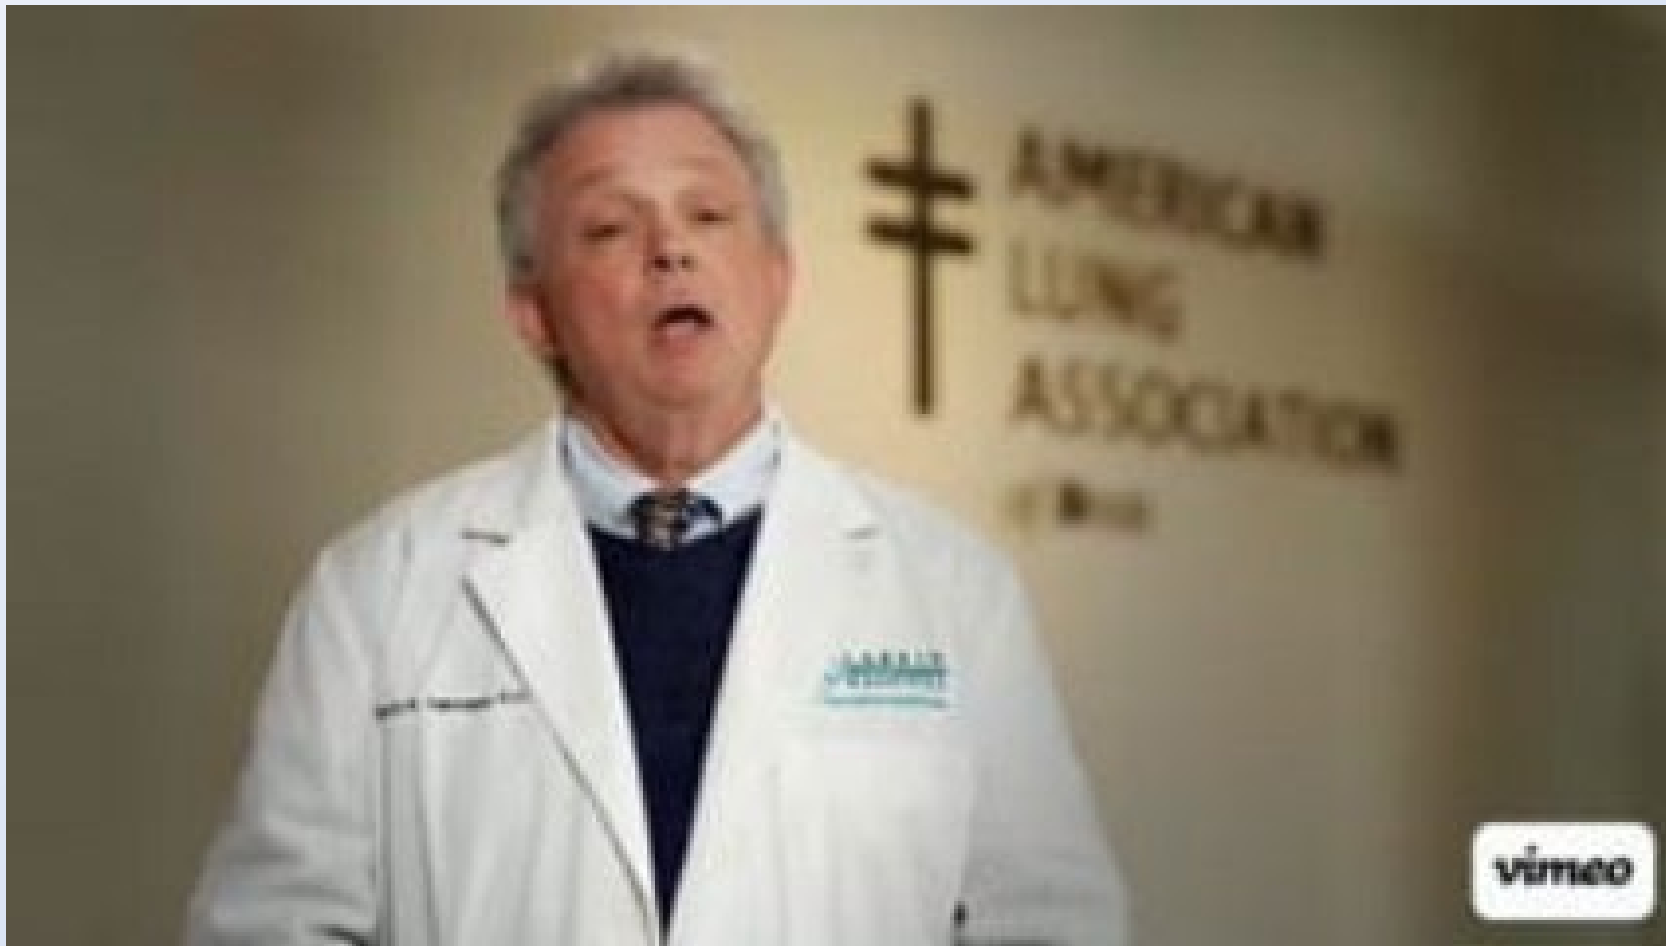

Are children at a higher risk of lung cancer?

Are older adults at a higher risk from radiation exposure than younger adults?

Are healthy people at risk from radon exposure?

What are the symptoms of radon exposure?

What are the symptoms of lung cancer?

Is there an association between radon gas and cigarette smoking?

What causes lung cancer?

Is there a screening test for lung cancer?

How is lung cancer treated?

Are there any radon concerns from water?

What is the impact of COVID on radon exposure?

Questions?
