Mitigation	Radiation	Particles
Ionizing	Uranium	Half-Life
Testing	Protect	Test Kits
Radon	Breathe	Alpha
Decay	Lungs	home

Scratch & Sniff

If you don't smell anything, that is because radon is a colorless, odorless gas! That is why testing is important!

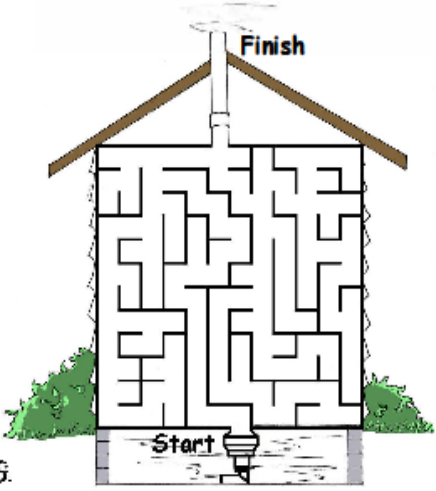

Radon may be colorless but the Mitigator doesn't have to be! Color him and help him stand out!

Radon Maze

Can you help The Mitigator vent the radon gas from the basement to the roof?
