

# The Top 5 Ways to Fail a Mitigation Audit

Bob and Dawn Coffee  
Your Environmental Services LLC

# Things to know...

**We have performed  
over 175 audits in  
Indiana and Michigan.**

# Things to know...

**We have performed  
over 175 audits in  
Indiana and Michigan.**

**(with another 100 to complete before the end of 2024)**

# Things to know...

**We perform audits using the IEA Mitigation Audit App, which is essentially a checklist with photos.**

# Things to know...

**We understand that homeowners sometimes alter their system between the time you installed it and the time we audited it.**

# Things to know...

# We are not perfect.

# #5 - Sump Pits

# #4 - Fans & Disconnects

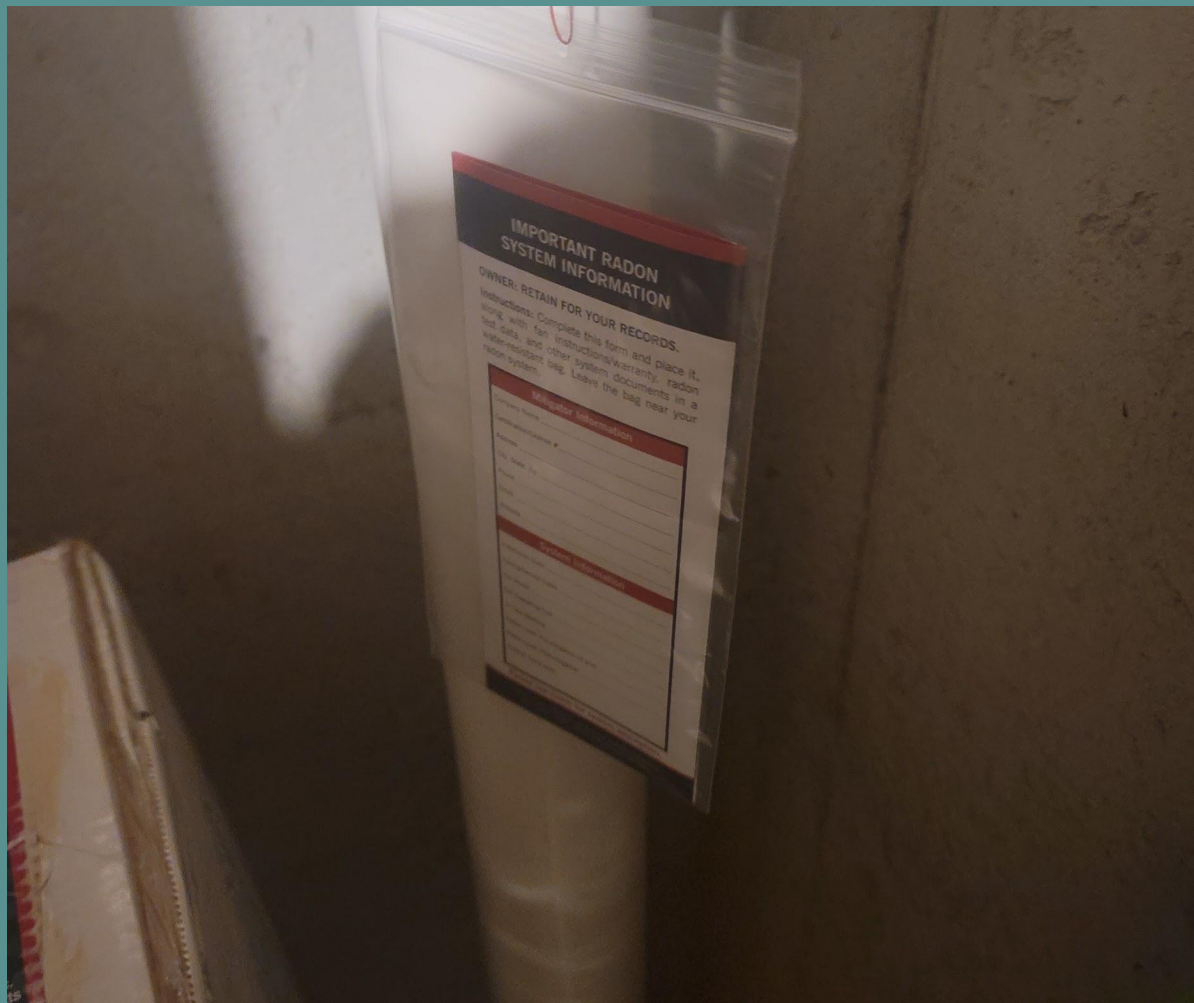

# #3 - Labeling & Information

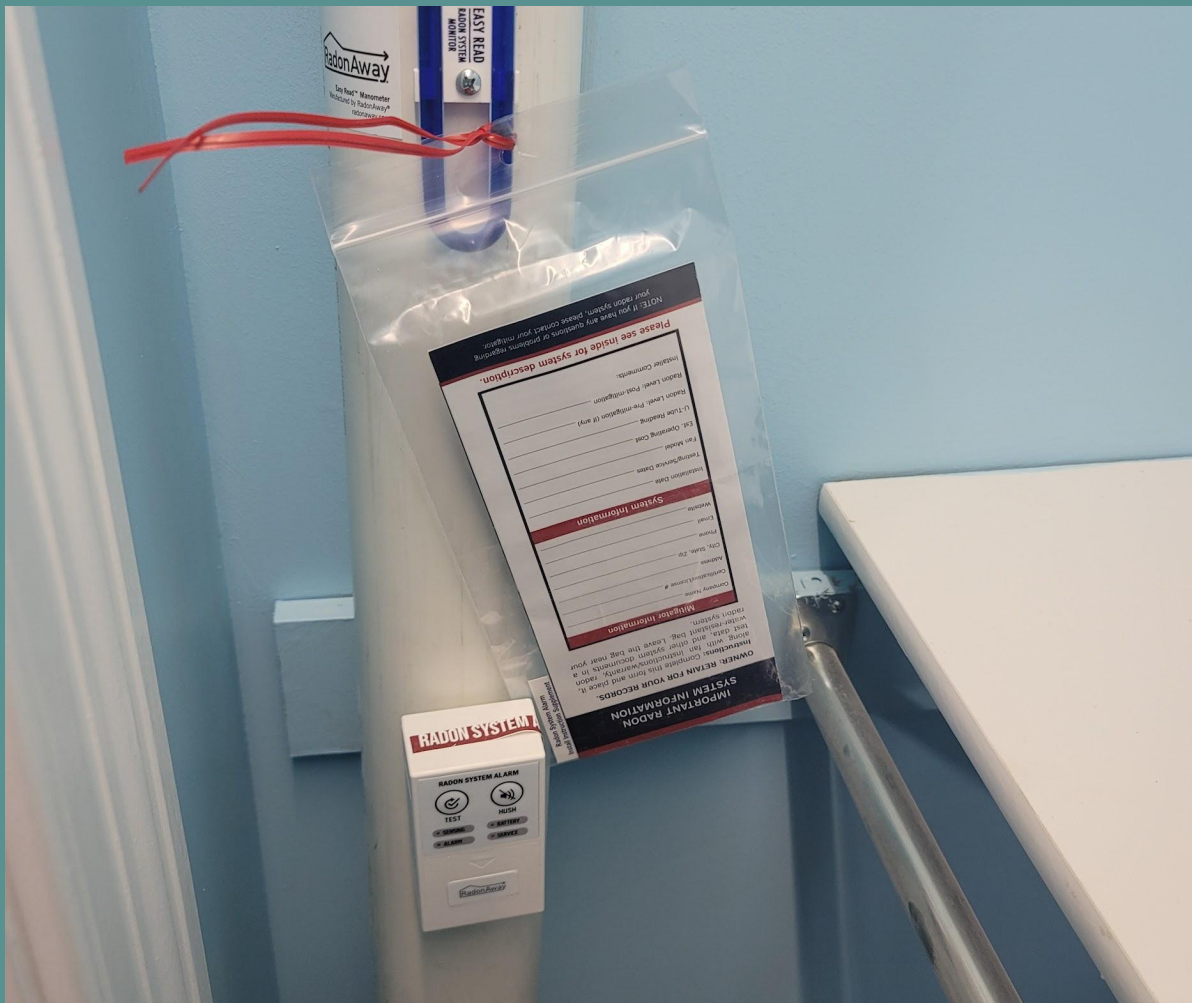

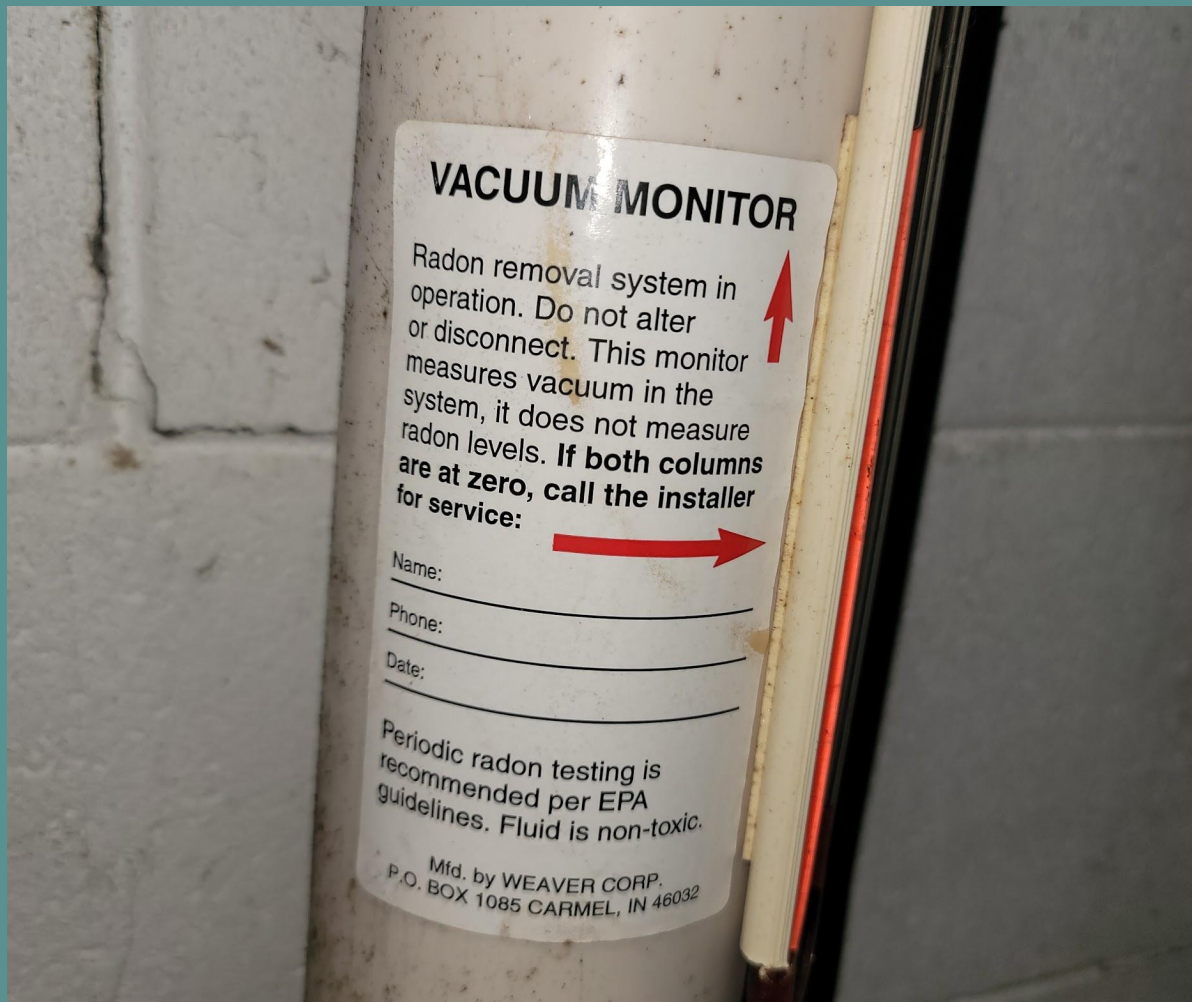

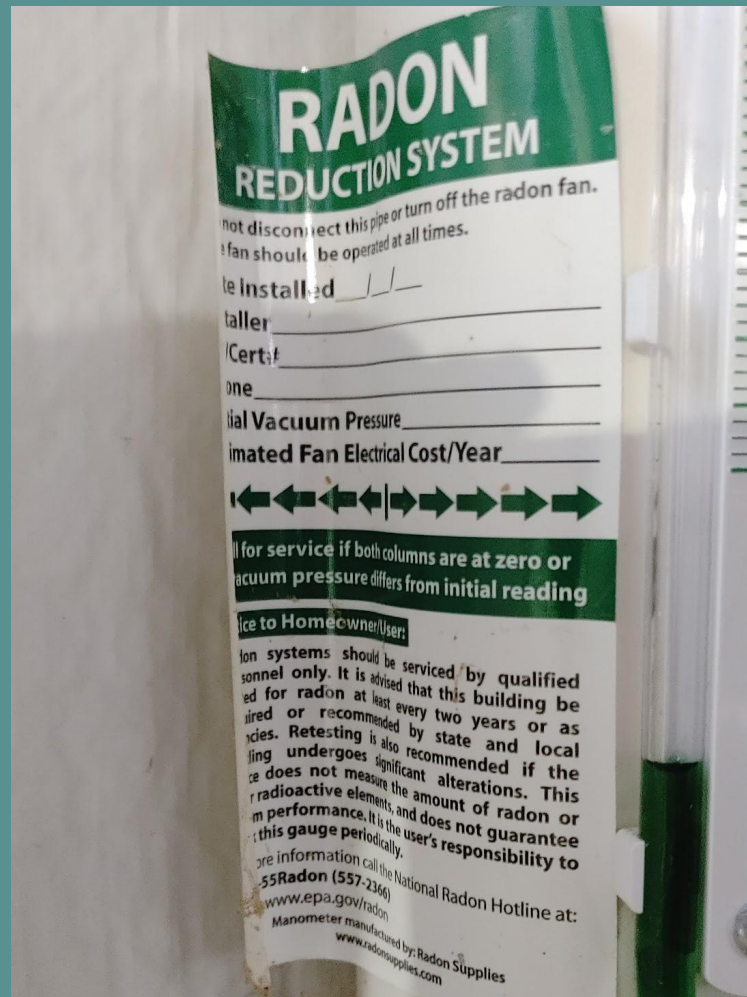

## #2 - Exhaust

Indoor Environments™ 2024 - Radon and Vapor Intrusion Symposium

Indoor Environments™ 2024 - Radon and Vapor Intrusion Symposium

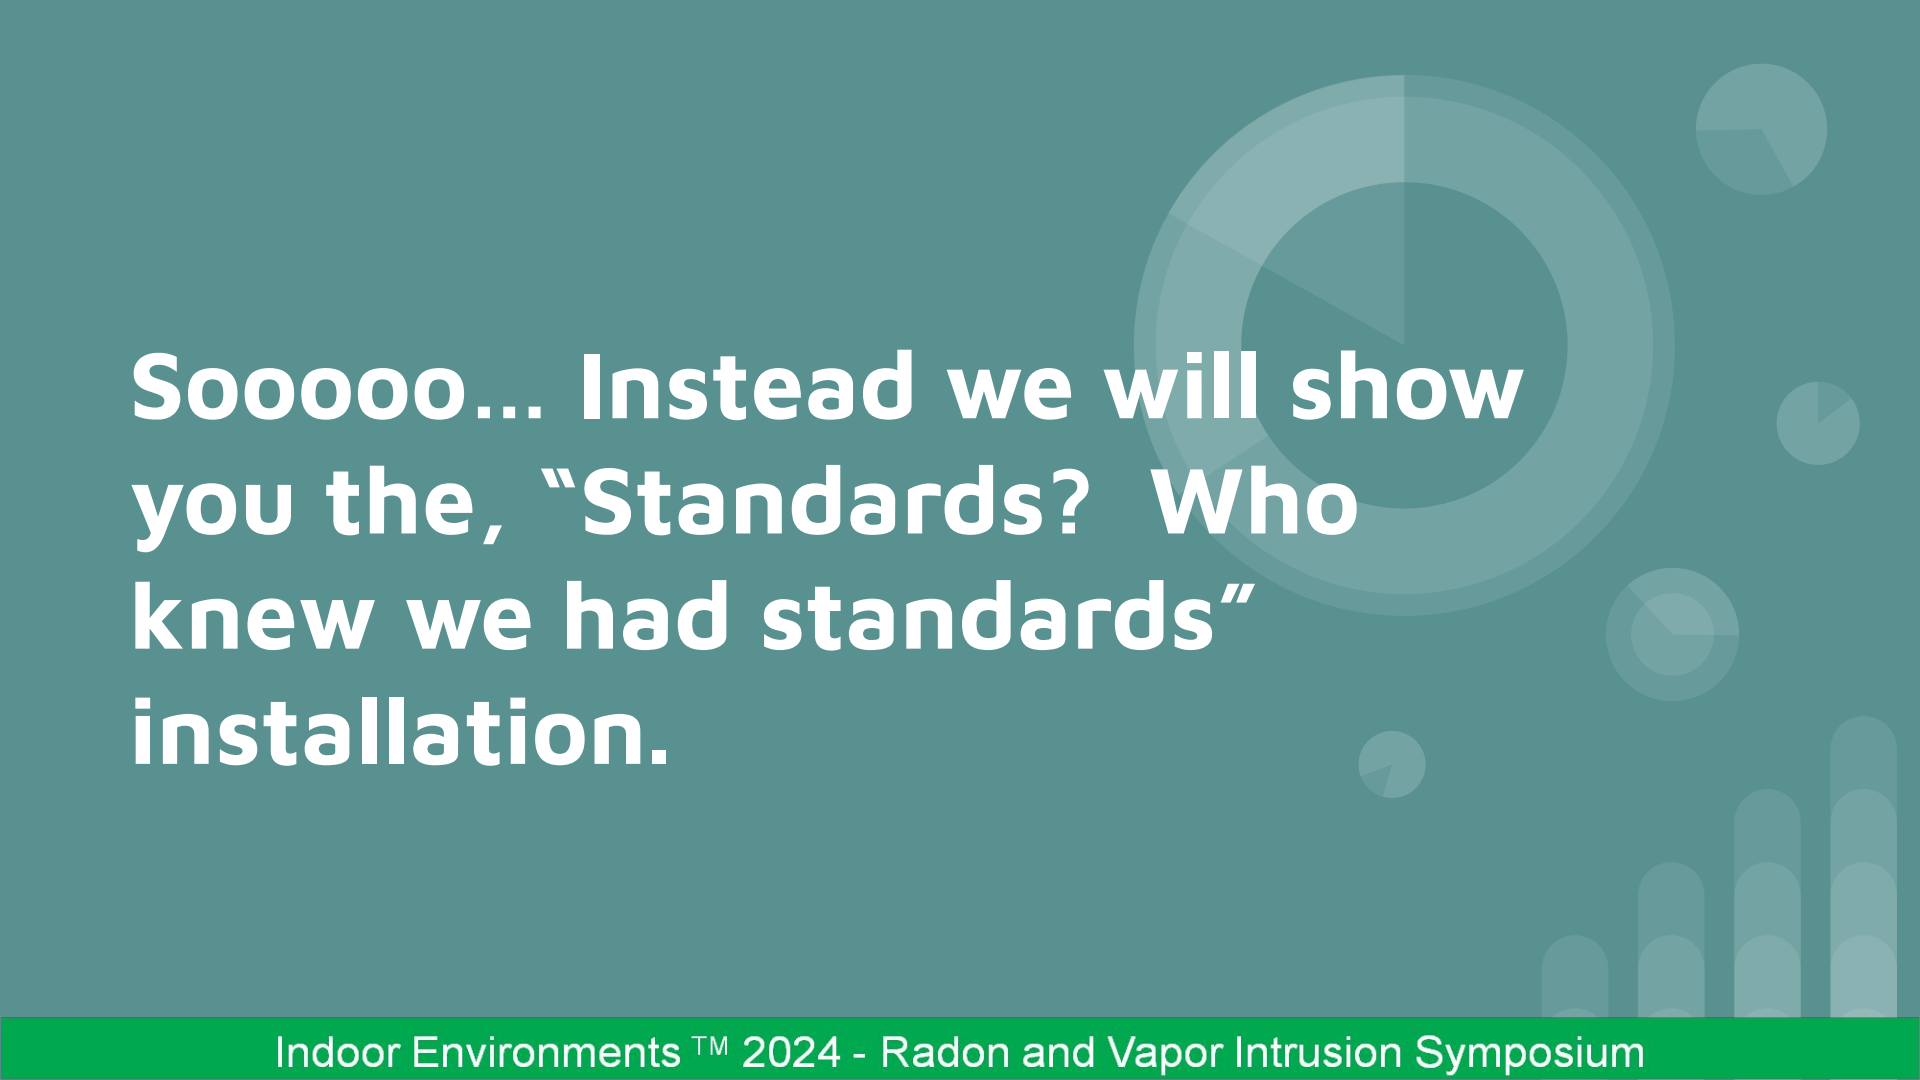

# #1 - Active Alarms

**No Active Alarm/Monitor was the number one flagged non-compliance issue, but, logically we have no photos because the alarms were not installed...**

**Sooooo... Instead we will show  
you the, “Standards? Who  
knew we had standards”  
installation.**

**And if this weren't  
bad enough...**

# Thank you!
