- Distributed 700 radon test kits to Tribal members in 2024
 - Test kits were donated by Air Chek
 - Approximately 10-15% usage rate
 - Best rate when test is requested v. given
- Developing radon risk map based on actual test results.

Risk Maps

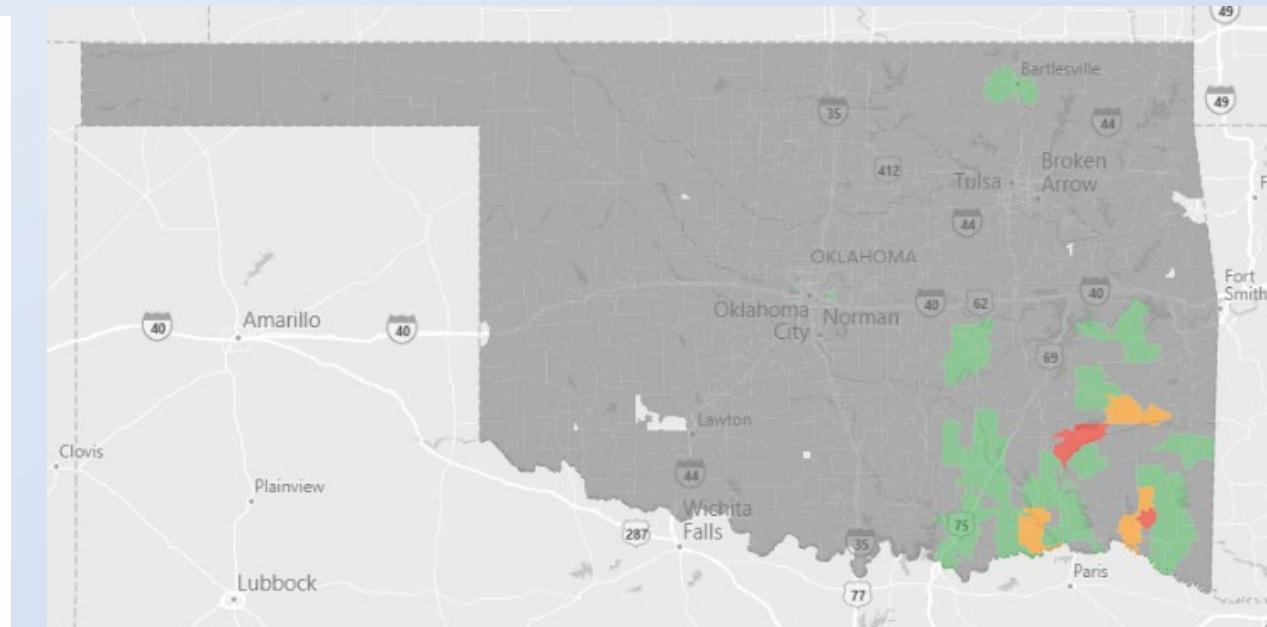

EPA radon risk map based on geological formations

Choctaw Nation of Oklahoma Public Health Department radon risk map based on actual test results. (Test data provided by Alpha Energy and Air Chek)

Only 135 tests

Most zip codes have less than 10 tests, some have only 1 or 2

Going forward

- SIRG
- HUD compliance beginning in January 2026
- Continue developing Tribal radon map
- Education and outreach
- Train 2 new staff members
